THE DAYS OPERATIONS IN STOCKS.

Pronounced strength in the greater number of issues with increased commission-house buying marked the course of securities trading yesterday. This was especially noteworthy in . im Industrials, where important advances were made upon a heavy volume of business. Current activity in the Industrial shares is an encouraging sign of expanding business in the industrial world. Wall Street is quick to detect the indications that point toward prosperity in to purchase the shares of industrial concerns shows a firm belief in an approaching era of great business growth and prosperity. The coming more popular, as instanced in the present dealings in Standard Rope and Twine. American Cotton Oil and other recently idle issues. The first-named stock represents a wellorganized company that in the last year has made a record of which the security-holders will, it is believed feel justly proud. The company's bonds have been extensively traded in the last few days, and the stock will doubtless sell considerably higher.

strength of the country's foreign credits are advising the sale of stocks, because they assume that money rates are going to be too high for active bull speculation. The recent fall in the Assoclated Banks' reserve, due in great part to bond payments, might foreshadow stringency, were it not for the fact that gold imports can be made at any time the situation needs additional funds. Already a slightly harder tendency in the money market has brought forth the prediction that gold imports will soon begin, while a London disputch yesterday stated that a movement of gold to this country could not long be averted. The demand for funds from the interior is somewhat heavier, but the interior movement this week has been in favor of the New-York banks. Money will doubtless rule firmer for the balance of the year, but there is nothing in sight that can possibly cause stringency. People who sell stock on account of uneasiness over the money market should make careful survey of the actual situation. Bull

markots have been successfully conducted upon
a much higher money rate than that now ruling.
Heavy buying of Union and Northern Pacific
stocks is based upon the companies' favorable
dividend prospects including the common as well dividend prospects including the common as well as the preferred. Northern Pacific preferred pays 4 per cent annually, and the common stock is now moving as if it too would soon be on the dividend list. It was reported early in the summer that Union Pacific would begin dividends on the preferred stock at the rate of 3 per cent a year, but it is now hoped that the company will, like Northern Pacific, be put upon a 4 per cent basis. St. Paul's friends expect an increase in the dividend rate or an petch and are buying the stock in except the property of the preferred stock and the rate of the preferred stock at the preferr extra dividend, and are buying the stock in expectation of favorable action by the directors.

Kingston & Pem Keok & Des M. velopments affecting the company's future. The buying as a rule, throughout the list was good, Long Irland. Long Irland. and sentiment was bullish at the close.

BANK STOCK SALES .- Six shares of the Bank of New-York sold on the Stock Exchange at 235, unchanged from last preceding sale. SECURITIES LISTED. - Under authority from the Governing Committee the committee on stock list added to the list yesterday \$1,000,-1004 | 000 United States Mortgage and True: Company real estate first mortgage collateral trust gold

CHICAGO GREAT WESTERN.- The annual report of Chicago Great Western, published on Thursday, showed over 3 per cent earned on the preferred A stock entitled to cash dividends. The balance sheet exhibited very little floating debt, and a generally prosperous condition. From a speculative point of view the common stack now selling around 17 is considered attractive, especially as it is now selling 3 points under its highest price last year, when the company's

prospects were less brilliant. STANDARD ROPE AND TWINE .- Activity in the securities of the Standard Rope and Twine Company continues, buying of the 6 per cent and income bonds being heavy, with 'a good interest in the stock. It is known that the company has had a prosperous year, while its prospects for the current year are thought to be most promising.

RIO GRANDE WESTERN.-The following official circular is issued by the Rio Grande Western: The auditor's completed figures of net earnings for the last fiscal year show a surplus of \$220,000 beyond the full 5 per cent paid upon the preferred stock. While the expenditures upon the property during the past years have been liberal, both for current maintenance and for improvements and betterments, it is deemed for the true interests of the stockholders to continue to make further outlays for improve make no cash division to the common stockholders, but to make a dividend of 2 per cent payable in preferred stock at par, and so provide \$200,000 of cash toward such betterment outlays. A further sum of \$50,000 is directed to be charged to profit and loss from the balance to credit, making a total amount for betterments of \$250,000. Of this \$87,000 had been expended up to June 30, and a portion of the remainder has been authorized to be expended during the current fiscal year.

Chicago, Aug. 26 (Special).-Wheat touched

"call" price in the forenoon to-day; it lost 14

cent from the top in the last hour, and closed

%@12 cent under Thursday. September opened

at 63% cents, soid between 64% and 63% 263%

cents, and closed at 63% cents. When Septem-

ber was at its best, the December lagged and was 2% cents discount. The early strength was

because of some alarm among September shorts,

were moved to-day by the light receipts here and by the prospect of a decrease in the visible Mon-

day, possibly a decrease of 500,000 bushels.

When the shorts covered, it was the old story,

It became again with every one a matter of the

big crop. Seaboard clearances were 725,000

bushels; primary receipts, 805,000 bushels, were less than last year, 912,000 bushels, although

the Northwestern arrivals were a good deal ahead last year. Minneapolis and Duluth had

511 cars, compared with 327 last year; 153 cars at Chicago, compared with 262 cars; 45,000

bushels at St. Louis, compared with \$6,000 bushels; 95,000 bushels at Toledo, compared

with 144,000 bushels; 162,000 bushels at Kansas City, compared with 225,000 bushels. There was a strong carlot market, but a poor cargo

ing to his figures, a total wheat crop of over 700,000,000 bushels. Liverpool closed ¼d. lower: Paris was steady. Argentine shipments were nothing. It was a narrow professional market

Corn was firm up to noon, and then weak from that until the close. The market got over

calls early, but closed around puts. Septembe

opened at 30% cents, sold between 30%@30% and 20% cents, and closed at 29% cents. De-

cember was about 1/4 cent premium, closing at

20% cents. Receipts were 501 cars, with 640 estimated for Saturday. There were very large

Argentine shipments, 1.288,000 bushels. Cables

were 1/40/4d. higher. Snow in his September

report figured the crop at 1,800,000,000 bushels.

Shippers called the demand flat. The specula-

tion was narrow. The weather West was de-

cidedly favorable-moderate temperature, no

signs of cold weather ahead, and some showers through Nebraska and Iowa. Charters were

Oats were all day within 1/4 cent range. September opened at 19% cents, sold between 19%

and 19%@20 cents, and closed at 19%@19%

cents. There was favorable weather for the movement; receipts were liberal, 391 cars, with 450 estimated for Saturday. There was no im-

provement in the shipping demand, which has

been slow for a week. Seaboard clearances were 233,000 bushels; charters were 180,000

There were yellow fever rumors from Galves-

reported for 575,000 bushels.

bushels.

after the September shorts were out.
